

# TECHNICAL TRAINING for SERVICE TECHNICIANS

Practical hands-on experiences are the way we learn best. General Pump's approach to technical training is through a combination of classroom and hands-on training that will make working with and servicing high pressure pumps and accessories easy to understand.

**HURRY!**  
TIME IS RUNNING OUT!

### Pump School Classes Cover:

- ➡➡➡ Overview of Systems
- ➡➡➡ Pump Theory
- ➡➡➡ Pump Repair
