GP Introduces New Economical Flat Surface Cleaner

General Pump now offers a heavy-duty flat surface cleaner that can be connected (using an M22 inlet) directly to a gun, lance or telescoping wand. Available with a cleaning width of 12 inches, the DFSCP12E cleans flat surfaces in a percentage of the time it would take with ordinary methods. The cleaner glides easily across surfaces, uniformly cleaning pool decks, sidewalks, garage floors and more. These cleaners offer flows of 4 GPM and pressures of 1,000 to 3,000 PSI. The heavy-duty, 12 inch covers are made from durable polypropylene and all metal surfaces are made from brass and stainless steel. Call or fax for more information. Phone: 888-474-5487 X199 or 651-686-2199. Fax: 800-535-1745.
