GP Introduces New TR – SR Series

General Pump is proud to introduce two new high-pressure triplex plunger pump series, the TR and SR. Both offer ultimate versatility with flows up to 236 GPM and pressures up to 22,000 PSI. These pumps feature double end crankshafts and can be mounted vertically or horizontally, adding to their versatility. Forced oil lubrication with integrated cooler, filter and gauge along with solid ceramic plungers and integrated gear reduction result in durability and reduced maintenance. These pumps are also available in 300 horsepower or 450 horsepower versions. Call or fax for more information. Phone: 888-474-5487 X199 or 651-686-2199. Fax: 800-535-1745.
