GP Introduces New High-Flow Unloader Valve

General Pump introduces the YU3723, a high flow unloader valve for vehicle wash applications. The YU3723 is specifically designed to handle higher flows of up to 37 GPM and pressures up to 2,300 PSI, making it especially perfect for General Pump's HTCK Series pumps. Call or fax for more information. Phone: 888-474-5487 X199 or 651-686-2199. Fax: 800-535-1745.
